

Become a part of our team!

Chrestos is a CRO which offers services for pharmaceutical companies and supports scientific studies. Our team consists of statisticians, programmers, data scientists and managers, medical writers and others who believe in making the world a healthier, sustainable, and better place. Together we have fun and share our ideas and concepts while enjoying coffee or lunch together.

To enhance our team we are looking for motivated employees for

BIostatistics (M/F/D)

Your Tasks:

- Working in interdisciplinary and international teams, contributing your high statistical expertise
- Keeping up to date in the biometric sector
- Planning, programming, documenting, and presenting statistical analyses in clinical studies
- Collaborating with experts in various fields, e.g., medicine, pharmacokinetics, and medical writing
- Programming of analysis datasets and creation of tables, figures and lists
- Ensuring that your work follows current guidelines and procedures

Your Qualifications:

- You have an above-average master's degree or PhD in statistics, data sciences, mathematics, bioinformatics, or other related fields.
- You are interested in data analytics and pharmaceutical research, and can assert your expertise.
- You have a high affinity for statistics and good knowledge of SAS or R (expertise in additional languages is a plus).
- You have intrinsic interest in statistics, and you want to maintain a high standard to achieve high-quality results.
- Your programmed code is clearly structured, easy to understand, and you enjoy programming.
- You have good communication and presentation skills, and are proficient in English with B2 German language skills.

We Offer

- An environment dedicated to sustainability
- An ambitious team that works with joy, passion, and flexibility
- Flexible, family-friendly work time and hybrid working arrangements
- Comfortable, modern workspace
- Further education for personal and professional development
- Wide range of corporate health services
- Transparent salary policy and comprehensive reward and benefit system
