

Become a part of our team!

Chrestos is a CRO which offers services for pharmaceutical companies and supports scientific studies. Our team consists of statisticians, programmers, data scientists and managers, medical writers and others who believe in making the world a healthier, sustainable, and better place. Together we have fun and share our ideas and concepts while enjoying coffee or lunch together.

To enhance our team we are looking for motivated employees for

DATA SCIENCE (M/F/D)

Your Tasks:

- Performing all kinds of exploratory data analyses using data from various sources (including big and high-dimensional data, structured and unstructured)
- Developing automated data analysis and machine learning pipelines, interactive tools, and data visualizations
- Working in interdisciplinary and international teams, contributing your statistical expertise, and presenting and discussing analysis results or developed tools
- Keeping up to date in the data analytics and pharmaceutical sector
- Shaping your work environment proactively

Your Qualifications:

- You have an above-average master's degree or PhD in statistics, data science, computer science, mathematics, bioinformatics, or other related fields.
- You have a high affinity for programming and very good knowledge of R, including R Markdown and Shiny (expertise in additional languages is a plus).
- You have good knowledge in statistical fundamentals and machine learning methods.
- You bring in intrinsic interest and curiosity in the latest technological developments in the field of data analytics.
- You work in a structured, target-oriented, independent way, and can incorporate new ideas and methods into your work.
- You have good communication and presentation skills, are proficient in English, and have B2 German language skills.

We Offer

- An environment dedicated to sustainability
- An ambitious team that works with joy, passion, and flexibility
- Flexible, family-friendly work time and hybrid working arrangements
- Comfortable, modern workspace
- Further education for personal and professional development
- Wide range of corporate health services
- Transparent salary policy and comprehensive reward and benefit system
