

Become a part of our team!

Chrestos is a CRO which offers services for pharmaceutical companies and supports scientific studies. Our team consists of statisticians, programmers, data scientists and managers, medical writers and others who believe in making the world a healthier, sustainable, and better place. Together we have fun and share our ideas and concepts while enjoying coffee or lunch together.

To enhance our team we are looking for motivated employees for

SAS PROGRAMMING (M/F/D)

Your Tasks:

- Working in interdisciplinary and international teams contributing your basic statistical expertise
- Keeping up to date in the pharmaceutical sector
- Being involved in the development of SAS programs to evaluate clinical studies
- Programming analysis data sets and creating tables, figures, and listings
- Ensuring that specifications are met, and the quality of programs and data sets is assured
- Being responsible for the results of your programs and monitoring the outcomes using plausible, professional and technical terms
- Validation and documentation of programs in compliance with current guidelines and procedures

Your Qualifications:

- You have an above-average bachelor's or master's degree in science (e.g., natural, data or social sciences, statistics, mathematics, bioinformatics, or other related fields).
- You are interested in data analytics and pharmaceutical research, and can assert your expertise.
- You have a high affinity for programming and good knowledge of SAS (expertise in additional languages is a plus).
- Your programming methods show a clear structure, are easily understandable, and you enjoy programming.
- You bring intrinsic and statistic interest, and you want to maintain a high standard to achieve high-quality results.
- You have good communication and presentation skills, and are proficient in English with B2 German language skills.

We Offer

- An environment dedicated to sustainability
- An ambitious team that works with joy, passion, and flexibility
- Flexible, family-friendly work time and hybrid working arrangements
- Comfortable, modern workspace
- Further education for personal and professional development
- Wide range of corporate health services
- Transparent salary policy and comprehensive reward and benefit system
