

## Become a part of our team!

Chrestos is a statistical health consultancy that within its business division CRO offers services for the pharmaceutical industry. We support our customers in planning, conducting and analyzing clinical studies.

In order to expand our data management team, we are looking for a

### Clinical Data Manager (m/f/d)

Remote working / Essen or Munich area

#### Your Duties and Responsibilities

As a Clinical Data Manager you are

- Overseeing all data management activities for clinical trials and non-interventional studies
- Creating study specific data management documents such as data management plans, data entry guidelines and annotated CRFs
- Developing specifications for eCRFs and designing clinical databases
- Taking on responsibility for ongoing data management during the study, e.g. data review and cleaning, query management, coding and SAE reconciliation
- Working closely with the biometrics and statistic I programming teams

#### Your Qualifications

- University degree in Medical Documentation / Informatics or successfully completed studies in a related field
- Several years of relevant professional experience gained in a CRO or a pharmaceutical company
- Extensive experience in EDC systems
- Proficient computer skills in MS Office
- Good knowledge of regulatory requirements in data management (ICH / GCP)
- Very good written and spoken language skills in German and English
- Have the ability to think client-oriented and team-oriented
- Have excellent communications skills and the ability to work independently

Do you possess team spirit, humor and an open mind? Do you want to create new fields of business not yet established? Do you want to be part of an ambitious team that works with joy, passion and flexibility? If so, we would like to get to know you. We offer you the possibility to take part in further training to develop personally and professionally. As part of our internal CHM, we offer you an extensive program of health-promoting measures. At Chrestos you have many opportunities to bring in yourself and your own ideas.
